Your Labdoo account username: emmanuellobijo

Project Site

Project title: Talent Lab – Digital Literacy and Life Skills for Youth in South Sudan

Project Description: Talent Lab is an educational initiative by Junub Open Space that aims to bridge the digital divide by providing IT literacy, coding, and life skills training to young people and teachers in South Sudan. The laptops will be used to conduct digital literacy workshops, online learning sessions, and access educational content from open-source platforms such as Afriqo Learning and Khan Academy. The project will benefit over 200 students and 10 teachers. Teachers will undergo digital skills training and basic maintenance instruction to ensure the laptops are properly used and cared for. The laptops will be stored in a secure, lockable room at Junub Open Space, where regular monitoring and reporting will be conducted.

Number of students: 200

Number of teachers: 10

Claimed IT Equipment

Number of laptops needed: 30

Number of eBook readers needed: 0

Others (Tablet-PCs, etc.): 5 Tablets (optional for content access)

Additional comments: We have identified travelers from Germany who can help transport the laptops to Juba, South Sudan.
